Description

Provide a short description of the event and its activities.

The group of about 80 people made up of students from Valence, Biberach, Asti and related companions arrived in Asti on 11 April. The first shared activity was the welcome by the municipal administration in the Town Hall. At the end of the greetings, the group visited the city accompanied by a professional tour guide. Free time before dinner allowed the groups to get to know each other and the group of Asti continued to introduce their city to their French and German colleagues. After dinner, the overnight stay as planned was in a hostel a few kilometers from the city. This decision was always taken with a view to allowing children of different nationalities to share space and time to get in touch with ideas different from their own.

The following day, 12th of April, was entirely dedicated to the world of volunteering: Asti, a candidate city for the European capital of volunteering for 2023, presented the youngsters with multiple associations present in the local area and operating in various fields. The representatives of the associations recounted their work live, bringing their direct testimony. The associations present were:

CARITAS

CSVAA – ASSEFA - ANTEAS

L'ARTE DEL SORRISO VIP

NOIX DE KOLA

LIONS CLUB ASTI

The afternoon was dedicated to visiting the Social Canteen and getting to know the Il Dono del Volo association with a subsequent visit to the Green Cross, where the volunteers illustrated the complex activity of this association, also simulating an emergency intervention.

On April 13th, Dr. Stefano Montaldo, professor of European Union Law at UniTO, presented to students the opportunities that the European Community offers to young people and proposed group activities, with role-playing games on the European structures.

The convivial final evening was particularly engaging, helping to unite the feelings of friendship which, albeit in a few days, rapidly established between the boys.

The day of April 14th was dedicated to greetings, the collection of considerations and feedback from the participants regarding the satisfaction of the proposed activities.

In general, this town-twinning was really full of experiences and news that the kids shared with each other and in the Asti area. It also made it possible to continue a twinning that was about to end.

HISTORY OF CHANGES

VERSION	PUBLICATION DATE	CHANGE
1.0	01.04.2022	Initial version (new MFF).

TUESDAY 11th APRIL
